PROFILE

Enthusiastic and result-oriented **Educator** with a strong background in **Science, Mathematics, and Computer Science**, dedicated to fostering conceptual clarity and problem-solving skills among students. With over **4 years of teaching experience**, I have successfully guided **Class 5–10 students** in Science and Mathematics, as well as **senior secondary and college-level learners** in Computer Science and Programming. Alongside classroom teaching, I bring practical expertise as a **Full Stack Developer** and mentor for student projects, enabling me to connect academic knowledge with real-world applications. I am passionate about creating an **interactive, technology-driven, and student-centered learning environment** that encourages curiosity, critical thinking, and academic excellence in alignment with the **CBSE curriculum**.
